The rise of media Streaming has accelerated the downfall of industry DVD rental companies such as Blockbuster. In July 2015 an article from the New York Times published an article about Netflix's DVD service (2020) s. It stated that Netflix is continuing their DVD service (2020) s with 5.3 million subscribers, which is a significant drop from the previous year. On the other hand, their Streaming service (2020) s have 65 million members. A BRRip is an already encoded video at an HD resolution (manually 1080p) that is then transcoded to a SD resolution.
